

## Why choose our deed?

Our deeds are prepared by Madgwicks Lawyers.

Here is a brief summary of the advantages of our SMSF deed package:

<b>Our Deed</b>	<b>Off-the-shelf deed suppliers</b>
<p>Our deed has specifically been drafted for superannuation funds where the members and trustees are the same. A specialist legal firm with many years experience in the self-managed superannuation market has drafted the trust deed in a manner that will provide both the trustee and the member with the maximum flexibility while complying with legislative requirements.</p>	<p>Other suppliers, typically shelf company suppliers, use lawyers with little experience in SMSFs, let alone tax and succession planning to review their deeds. These suppliers, generally, only supply documents and do not offer advice or technical support.</p>
<p>We are able to deliver and maintain this service at a competitive cost and keep your documents up to date as legislative requirements change.</p>	<p>The law in relation to SMSFs is now such a complex and continually changing field that accessing documents or services from a supplier who does not have the requisite expertise, is risky. Other suppliers invariably compete on cost and sacrifice quality and service.</p>
